

# Unify Your Sample Data Ecosystem

Get a 360° view of clinical samples across the entire precision medicine lifecycle, from collection through long-term storage.

## Real-time Biospecimen Management From Sites to Results

- Sample Collection Monitoring & Compliance
- Sample Testing & Stability Summaries
- Logistics: Sample Shipment Lists & Tracking
- Dynamic Dashboards & Enterprise Reporting

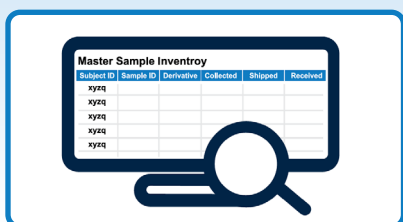

- Master Sample Inventory (MSI)
- Data Reconciliation Query Tracking
- Consent Tracking
- Data Checks

Conversationally explore your sample data ecosystem with your Virtual Assistant for sample operations

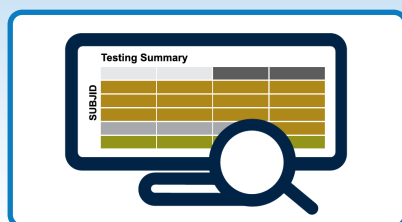

## Sample Intelligence Supports a Broad Set of Use Cases and Functions

### Biospecimen / Biomarker Operations

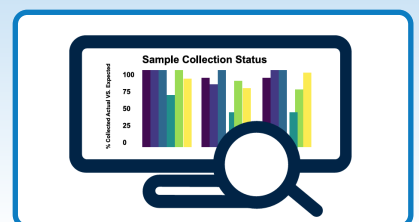

Comprehensive view of samples, harmonized from all lab sources and EDC

### Translational Research

Centralized view of sample testing status across assays and labs

### Clinical Operations

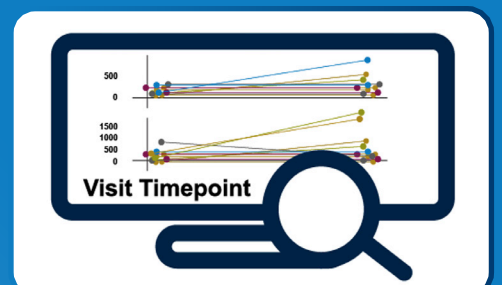

Ensure quality data and compliance with sample collections

## Explore integrated sample and biomarker data for richer insights

Support the full R&D lifecycle with smart, automated integration of biomarker, sample, and clinical data.

Learn how our Biomarker Intelligence capabilities facilitate decision-making:

Visit [quartzbio.com/biomarker-intelligence](https://quartzbio.com/biomarker-intelligence)

## Security & Compliance

- Fully validated platform
- Supports GDPR, 21 CFR part 11, GxP compliance
- SSO integration with client's IDP
- User access management, full audit trail
- Deployment, maintenance, and monitoring of all infrastructure
